Subject: RE: Rolling Knolls Deliverables
Date: Wednesday, April 08, 2015 9:24:41 AM

Tanya,

I have received this email. In the future, please include John Persico on all project correspondence. During the spring and summer months, I am out in the field for several projects and do not always have access to my email in a timely manner.

Thanks,

Suzy

Subject: Rolling Knolls Deliverables

Confirmation of this email is requested.

Hi Suzy,

Please consider the following when submitting future deliverables:

In addition to Human Health Soil Remediation Standards (SRS), NJDEP has soil Ecological Screening Levels (ESLs) that should be included in the evaluation of soil sample results.

Tables on the Figures, which list the NJDEP Soil Remediation Standards (SRS) and NJDEP Ground Water Quality Criteria (GWQC) should identify the units, which are in milligrams per kilogram (mg/kg) and parts per billion (ppb), respectively. The GWQC table should also include mercury, which is a contaminant of concern with a GWQC of 2 ppb.

Should you have any questions or concerns regarding this email, please notify me within three days of receipt of this email.

Regards,

Tanya
